

Java Programming Internship

IILM University

**Student
Name**

Manish Kumar Lodhi

Enrollment Number

[25SCS1003005450]

Program & Semester

[Btech CSE] | [3RD] [Section – 2cse28]

Organization

Code Alpha

Duration

August - September 2026

About This Journey

Java Programming Training

Learned Core Java, OOP, classes, objects, methods, and collections.

1. Month Internship

Gained practical experience through Java coding and project work.

Practical Skills.

Improved problem-solving, debugging, and programming skills.

Projects Work

Developed a **Hotel Reservation System** using Java.

Java Programming Training Program Overview

- Learned Core Java fundamentals.
- Practiced OOP concepts.
- Worked with classes, objects and methods.
- Built a strong foundation in Java programming.

Core Skills Developed

1. Core Java
2. OOP Concepts
3. Classes & Objects
4. Constructors & Methods
5. ArrayList
6. Exception Handling
7. Problem Solving
8. Debugging

Professional Competencies

Project Execution

Completed assigned Java tasks on time.

Teamwork

Improved communication and collaboration.

Self-Learning

Practiced Java concepts independently.

Work Ethics

Maintained consistency and responsibility.

Hotel Reservation System

Objective

Develop a simple hotel reservation system using Java.

Approach

Used classes, methods, ArrayList and Scanner.

Features

Room availability, booking and cancellation.

Impact

Improved practical Java programming skills.

Technical Deep Dive

Main Features

- . View available rooms
- . Book a room
- . Cancel a booking
- . Manage booking records
- . Menu-driven interface

Technical Implementation

Key Concepts

- Classes & Objects
- Constructors
- Methods
- ArrayList
- Scanner
- Loops & Conditions
- Exception Handling

Accomplishments

- Developed a working Java application.
- Applied OOP concepts practically.
- Improved coding and debugging skills.
- ☑ Learned to manage data using ArrayList.

Recognition & Feedback

Recognition: Demonstrated dedication and consistent learning.

Feedback: Improved Java programming and problem-solving skills.

Overall: Gained practical experience in Java application development.
